LABORATORY EQUIPMENT

Laboratory Incubator

- Applicable for cultivation of biological and bacterial products in medical and pharmaceutical settings. - Precise temperature control with max temperature of 65 degrees Celsius. - Double glass window for observation without opening during use.

KES 35,000 (indicative; the quotation confirms the final price)

TECHNICAL SPECIFICATIONS

Laboratory Incubator	Designed for precise temperature control to support microbial growth, sample storage, and other laboratory applications.
Adjustable Temperature Range	Provides consistent heating for optimal incubation conditions.
Digital Display & Controls	Ensures accurate temperature monitoring and easy adjustments.
Stainless Steel Chamber	Corrosion-resistant interior for durability and easy cleaning.
Uniform Heat Distribution	Equipped with advanced heating technology for stable conditions.
Glass Observation Window	Allows easy sample monitoring without disturbing the internal environment.
Ideal for Medical & Research Labs	Used in microbiology, pharmaceuticals, and biological studies.
