HOME CARE EQUIPMENT

Lumbar Support

A lumbar corset works by putting pressure on your abdomen. This takes weight off your spine and joints to help you heal more easily. You may need a lumbar corset if you have low back pain, arthritis, or a degenerative disc disease. A corset can also be used for a short time to treat pain from a sprain or strain. Functions: *Provide intro-abdominal pressure against spinal instability *6 stays to support back muscles and prevent undesired range of motion.

KES 3,500 (indicative; the quotation confirms the final price)

FEATURES

- 6 stays to support back muscles and prevent undesired range of motion
