DIAGNOSTIC EQUIPMENT

Pen Torch

A pen light is a small flash light in the shape of a pen. It uses a small light known as LED (light emitting diode). It also uses a small light bulb made just for small flash light, LED lights up when power is run through it. LED is strong enough to allow medical professional to safely examine patient without being too bright. they come with a pupil gauge as well as a 5cm ruler. The length of each pen is about 5.3 inches.

KES 500 (indicative; the quotation confirms the final price)
